

# Larry Diakow

---

- Studied Geology at the University of Saskatchewan; subsequent graduate work at the University of Western Ontario
- Joined the British Columbia Geological Survey in the early 1980's as a bedrock mapping geologist
- Involved in numerous mapping projects, specializing in stratigraphy and metallogeny of Triassic, Jurassic and Cretaceous magmatic arcs in Stikine and Quesnel terranes
- This presentation on the Nicola Group is based on results from several field programs initiated in 2012 between Merritt and Princeton by Mitch Mihalynuk and farther north near Quesnel by Paul Schiarizza.
