

Lorne McLeod Warner

Lorne McLeod Warner graduated from high school in Kamloops in 1979 and later from the University of Alberta in 1986 with a BSc in Geology.

Lorne is a registered professional geologist in B.C, NWT and Nunavut with over 30 years experience in mineral exploration, underground and open pit mining firstly with Noranda Exploration and Placer Dome Inc. His career started in mineral exploration in British Columbia but has now worked throughout the Americas, Africa, Asia and Australia.

As the vice president of several junior mining companies his team discovered the western extension of the Detour Lake gold deposit, now in production in Ontario. As well, the Falea North Zone - Uranium, Silver, Copper Deposit and the Fatou Main Gold Deposit in Mali.
